## Web Developer

Jakarta, Indonesia | +6281364451118 | [ridhoekasanjaya3@gmail.com](mailto:ridhoekasanjaya3@gmail.com) | [LinkedIn](#) | [Github/Portfolio](#)

### SUMMARY

I'm a Computer Science graduate with a strong focus on web development, particularly in JavaScript. I enjoy transforming ideas into interactive, user-friendly web applications, and I take pride in writing clean, efficient, and maintainable code. With a solid technical foundation and a creative mindset, I am continuously driven to learn and grow in the ever-evolving world of web technologies.

In addition to my development experience, I have worked as a freelance tax consultant, which enhanced my analytical thinking and attention to detail. Beyond work, I am an active futsal player and a gaming enthusiast—activities that have strengthened my collaboration, strategic thinking, and adaptability in both professional and personal settings.

### EDUCATION

<b>Hacktiv8</b> <i>Full Stack JavaScript Immersive Program (<a href="#">Transcript</a>)</i>	<b>Jakarta, Indonesia</b> <i>June 2024 – Oktober 2024</i>
<b>Telkom University</b> <i>Bachelor of Informatics</i>	<b>Bandung, Indonesia</b> <i>2017 – 2023</i>

### WORK EXPERIENCE

<b>PT. Telkom Indonesia</b>  <i>Network Area</i> <ul style="list-style-type: none"><li>Created Warehouse Management Software</li><li>Maintance Server Room</li></ul>	<b>Pekanbaru, Indonesia</b>  <i>Jul 2021 – Aug 2021</i>
<b>Assistant Tax Consultant</b>  <i>Freelance</i>	<b>Pekanbaru, Indonesia</b>  <i>Jan 2020 – Sep 2022</i>
<b>Mekari</b>  <i>Frontend Developer Intern</i> <ul style="list-style-type: none"><li>Learning Management System Talenta</li></ul>	<b>Jakarta, Indonesia</b>  <i>Dec 2024 – Jun 2025</i>
<i>Technical Support</i> <ul style="list-style-type: none"><li>Provided technical support for applications built with Officeless.</li><li>Performed Root Cause Analysis (RCA) to identify recurring issues and provided recommendations for long-term solutions.</li><li>Resolved user issues related to workflows, forms, and application features via Intercom.</li><li>Managed tickets and live chats efficiently using Intercom to ensure timely responses.</li><li>Collaborated with the development team to escalate and resolve complex technical issues.</li></ul>	<i>Jun 2025– Present</i>

## SKILLS

---

**Language:** JavaScript, Typescript, Python, SQL

**Front End:** React JS, Redux, React Native, HTML & CSS, Axios, Next JS, JWT, oAuth

**Back End:** Node JS, Express, Sequelize, PostgreSQL, GraphQL, Apollo Server, MongoDB, Redis, Rest API, Typescript, MVC, Jest, GCP, FastApi

## PROJECTS

---

### [Valcom](#)

September 2024

A web based community app with the integration of an RPG environment

**Tech stack:** ReactJS, Express.js, PostgreSQL, Jest, GCP, Google oAuth, Gemini AI, 3<sup>rd</sup> party API for server-side, Supabase

### [Kyra Messenger](#)

September 2024

Kyra Messenger is a web-based chat application that allows registered users to communicate with others in a global chat environment. Users can send and receive real-time messages and update their profiles, making it easy to stay connected.

**Tech stack:** React JS, Vite, Redux, Socket IO, Express, Sequelize, PostgreSQL, Supabase

### [Restaurant App](#)

August 2024

A web-based application designed to display restaurant menus, allow users to place orders, and complete purchases online. The app provides a smooth and intuitive user experience, letting customers browse items, select quantities, and finalize their orders seamlessly. It also handles notifications and order confirmations, ensuring efficient communication between customers and the restaurant.

**Tech stack:** Express JS, PostgreSQL, NodeMailer

### [PizzaAzza](#)

September 2024

PizzaAzza is a web-based e-commerce application designed for pizza lovers to easily browse and purchase their favorite pizzas. Users can explore a variety of pizza options, customize their selections, and add their preferred pizzas to a personalized wishlist for future reference. With a seamless user experience, PizzaAzza makes it simple to satisfy pizza cravings, whether you're looking for a quick snack or planning a feast.

**Tech stack:** ReactJS, NextJS, Typescript, MongoDB, Vercel, JWT

### [NongkrongIn](#)

September 2024

A mobile app based on LinkedIn. This application allows users to create accounts and connect with friends. User can share posts, share pictures, like and comments other posts.

**Tech stack:** React Native, MongoDB, GraphQL, Apollo Server

### [Job Portal Web](#)

August 2024

Job Portal Web is a web-based application designed to showcase available job opportunities posted by hiring partners. The platform allows job seekers to browse through various listings, while hiring partners have full control over managing their job posts via an integrated Content Management System (CMS). They can easily add, update, or delete job listings, ensuring that the platform remains up-to-date with current opportunities. This streamlined solution connects employers with potential candidates efficiently.

**Tech stack:** ReactJS, Redux, Vite, GCP, Firebase, ExpressJS, Sequelize, PostgreSQL, Supabase

## Fitmate

October 2024

FitMate is a cutting-edge web application designed to transform the way people shop for clothes online. With the rise of e-commerce, the challenge of finding the perfect fit without trying on clothes in person has become a significant pain point for customers. FitMate bridges this gap by providing an innovative solution: virtual fitting.

**Tech stack:** *ReactJS, NextJS, MongoDB, Fal.ai, Gemini AI, Vercel*

## LMS Talenta

Jan 2025 – Jun 2025

LMS Talenta is a corporate learning management system under Talenta by Mekari, I was responsible for developing and maintaining responsive web interfaces using React.js to support employee training and development. I collaborated closely with design and backend teams to implement intuitive features such as course modules, progress tracking, and certification workflows. My role included integrating RESTful APIs, optimizing performance, and ensuring seamless interaction between the LMS and the company's HRIS platform. The result was a stable, scalable web-based learning platform that improved user engagement and streamlined internal training processes.

**Tech stack:** *ReactJS, Typescript, OAuth, REST API*

**Design Tools:** *Figma*

## Productivity Tools

Feb 2026

**Private Tools** is a lightweight, privacy-focused web application offering essential productivity utilities for personal, team, and public use — without authentication, tracking, or persistent storage.

### **Key Features:**

- **Merge Excel:** *Combine multiple Excel files with multiple sheets while preserving original sheet names.*
- **Document Conversion:** *Convert between PDF ↔ Word (DOCX) quickly and securely.*
- **Epoch Converter:** *Convert Epoch timestamps to human-readable dates and vice versa, fully timezone-aware.*
- **String Tools:** *Transform multiline input into quoted, comma-separated strings, ideal for SQL, configs, and scripting.*

### **Tech Stack:**

- **Backend:** *FastAPI, Uvicorn, Python libraries for Excel, PDF, and Word processing, LibreOffice for document conversion, timezone-aware epoch conversions, containerized with Docker*
- **Frontend:** *Next.js, Tailwind CSS, Framer Motion, shadcn/ui for a clean, responsive UI.*
